

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	5-july-2026
Team ID	
Project Name	Cosmetics Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau
Maximum Marks	4 Marks

Step 1 – Team Gathering, Collaboration & Select the Problem Statement

Before you collaborate

Team meeting, Collect dataset, Discuss project, Assign tasks, Set timeline.

🕒 10 minutes

A

Team gathering

Share ideas
Discuss problems
Select topic
Finalize project

B

Set the goal

Analyze cosmetics
Build dashboard
Show insights
Easy analysis

C

Learn how to use the facilitation tools

Tableau basics
Charts
Filters
Dashboard
Story

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we analyze cosmetic trends using Tableau?

Key rules of brainstorming

To run an smooth and productive session

 Stay in topic.

 Encourage wild ideas.

 Defer judgment.

 Listen to others.

 Go for volume.

 If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

3 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP You can select a sticky note and use the pencil button to start drawing!

4 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TIP Just a reminder to keep to sticky notes to make it easier to find, move, organize, and manage. Important ideas or themes will be your main focus.

Step-3: Idea Prioritization

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the slider pointer holding the **Help** on the top-right.
