

Project Design Phase Problem – Solution Fit Template

Date	6 July 2026
Team ID	
Project Name	Cosmetics Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Problem–Solution Fit Canvas 2.0 – Cosmetic Insights

Purpose / Vision: To uncover cosmetics trends and consumer insights through data-driven analysis and interactive visual dashboards.

Define CS, refine OC	1. CUSTOMER SEGMENT(S) CS - Beauty & skincare consumers (all age groups) - Makeup enthusiasts and product researchers - Cosmetic brands & manufacturers - Market analysts & trend researchers - Retailers & e-commerce sellers - Students and academics	6. CUSTOMER CONSTRAINTS CC - Huge volume of products and brands is hard to analyze. - Scattered data across categories and platforms. - Difficulty in comparing brand performance. - Lack of clear insights on pricing vs ratings. - Time-consuming manual analysis of cosmetic data. - Need for interactive and easy-to-understand insights.	5. AVAILABLE SOLUTIONS AS - Existing review sites (limited analytics). - Social media trends (unstructured data). - Basic spreadsheets and reports. - Traditional market research reports. - Data visualization tools (limited to experts). - Machine learning models (complex for non-technical users).	Explore AS, alternatives
	2. JOBS-TO-BE-DONE / PROBLEMS J&P - Understand consumer preferences and trends. - Compare brands, products, and categories. - Analyze ratings, pricing, and popularity. - Identify top products and brands. - Visualize insights in a simple and interactive way. - Make data-driven decisions for business or research.	9. PROBLEM ROOT CAUSE RC - Lack of centralized and clean cosmetic data. - Unstructured and inconsistent product information. - Difficulty in ranking and comparison manually. - No clear visualization of key metrics. - Lack of interactive tools for exploration. - Delayed insights due to manual processing.	7. BEHAVIOUR BE - Consumers search and compare before buying. - Prefer visual charts over long reports. - Rely on ratings, reviews, and trends. - Use filters to narrow choices (brand, category, skin type). - Share insights and recommendations. - Expect quick and reliable data visualization.	
Identify triggers TR & EM	3. TRIGGERS TR - New product launches. - Seasonal trends and offers. - Rising consumer reviews and ratings. - Social media trends. - Business need for market analysis.	10. YOUR SOLUTION SL - An interactive Cosmetic Insights dashboard platform. - Visual dashboards for brands, products, categories, ratings, and price analysis. - Easy-to-use filters (brand, category, skin type, price). - Built using Tableau for powerful visual analytics and stories. - Helps users explore data and make informed decisions quickly.	8. CHANNELS OF BEHAVIOUR CH 8.1 ONLINE - Web application (accessible anywhere). - Shared dashboards and public links. - Embedded visualizations. 8.2 OFFLINE - Reports and insights for meetings. - PDF exports of dashboards and summaries. - Presentations and academic/project usage.	Extend reach, optimized CH, refine BE
	4. EMOTIONS: BEFORE / AFTER EM Before: Confused, overwhelmed, lack of clarity. After: Informed, confident, satisfied with choices. - Satisfaction from insights and better decisions.
